

D'Souza joined Diversity Commission in 2017 in hopes to represent Indian Community in Forest Park and share glimpses of Indian Culture.

He believes that only when we know one another and share our views, we come closer to one another. This helps to build up oneness in communities and we become one global family.

A Forest Parker for the last 36 years, as well as being the District Governor for Lions Clubs International for two terms, D'Souza has good experience and resources in various issues in human life. He cares deeply for his community and wants to share anything he can to have a peaceful environment to raise our children in our community to live a better life for tomorrow.
