

# CONSTRUCTION NOTICE

2019 GREEN ALLEY PROJECT

**RESIDENTS OF THE  
900 MARENGO – ELGIN ALLEY**  
(FROM LEXINGTON TO HARVARD)  
Please see map on reverse

Beginning on **Monday, April 1, 2019** your alley will be removed and replaced with PCC pavement and porous concrete pavers. The reconstructed alley will have an inverted pitch so that all water runs to the middle and then proceeds to each end of the alley for drainage. This project will be performed by J. Nardulli Concrete, Inc. and will take approximately 40-45 days, weather permitting. During this time, we ask all residents to get all vehicles out of their garages and/or parking lots which pertain to this alley. Once construction begins, you will not have access to drive down your alley at all.

Thursdays please have all garbage, recyclables, and yard waste out front on your parkway for regular pick-up. Republic Services has been notified of the construction and is willing to accommodate us. *Businesses and large apartment buildings are responsible for contacting their scavenger company regarding the construction to make arrangements for their pick-up day(s).*

Residents are asked to please come to the **POLICE PARKING DIVISION**, 517 DesPlaines Avenue, so that a temporary construction parking permit can be issued (**must provide license plate number and proof of address**). Temporary permits will be available for ***pick-up only*** during regular business hours: Monday 8:00am-7:00pm, Tuesday-Friday 8:00am-5:00pm. These permits will allow you to park on the street, in front of your home, for the duration of the project; there is no charge for the permit. Residents who purchase Village parking permits to park in municipal parking lots should continue to park in those lots, as they are not affected by the construction. Please contact the **POLICE PARKING DIVISION AT 708-366-7272** for **parking-related questions**.

Christopher Burke Engineering is overseeing the project on the Village's behalf. Should you have any questions or concerns about please contact Construction Engineer **Brad Bahn, PE at 224-275-0030**.

Your patience during this construction period is greatly appreciated.

Director John Doss
